American Concrete Pavement Association Presents Lifetime Pavement Recognition Award

Rosemont, Ill. – The American Concrete Pavement Association (ACPA) has presented its Lifetime Pavement Recognition Award to a 70-year-old section of concrete pavement on California’s Interstate 10 (Ontario to Colton Freeway).

The award was presented to the California Department of Transportation (Caltrans) District 8. Accepting the award on behalf of Caltrans District 8 were Jian (James) Lan, P.E., Senior Transportation Engineer, and Kevin H. Chen, P.E., Transportation Engineer.

The concrete pavement built in 1947 along this 10-mile section, originally designated US 70-99, is still in use today and has survived the unrelenting forces of traffic and time.

In 1967, this pavement became an historic section as the first concrete pavement in the nation to receive a revolutionary new process called diamond-grinding. Today, diamond-grinding is a widely accepted and time-tested technology that is commonly used around the world.

Thanks to the innovative and forward-thinking spirit of CALTRANS and the local paving industry, this concrete pavement continues to serve California’s Inland Empire, while linking the past, present, and future of concrete highways.

Awarded annually since 1994, this award is presented to the agency owner of an in-service concrete pavement that has demonstrated exceptional performance and service to its local community, state,

and users. This recognition rotates annually between public market segments: highway, street/road, and airport.

About the American Concrete Pavement Association

The American Concrete Pavement Association is the national trade association for the concrete pavement industry. The primary mission of the ACPA is to lead the promotion of concrete paving, and align its members, chapters/state paving association affiliates and partners for effective and valued concrete pavement promotion, advocacy and technical support on behalf of the concrete pavement industry.

Founded in 1963, the American Concrete Pavement Association is headquartered in Chicago at 9450 West Bryn Mawr Ave., Suite 150, Rosemont, Ill. 60018. Telephone: 847.966.2272. The Association's metropolitan Washington, DC-office is located at 3925 Chain Bridge Road, Suite 300, Fairfax, Va. 22030. Phone: 202.638.2272. Visit us on the web at www.acpa.org.
