Title: Resolution in support of the plan: “Renewing the National Commitment to the Interstate Highway System: A Foundation for the Future.”

WHEREAS, The FAST Act of 2015 called for the Transportation Research Board (TRB) of the National Academies of Sciences Engineering, and Medicine to conduct a study on the actions needed to upgrade and restore the Interstate and Defense Highway System; and

WHEREAS, The study yielded a plan that includes 10 key recommendations to Congress, including innovative concepts and actionable measures that are favorable to state transportation agencies, taxpayers, highway users, and the transportation-construction industry; and

WHEREAS, TRB is arguably the world’s leading transportation research organization, and furthermore, the credentials of the oversight committee have tremendous bearing on the viability and credibility of both the study and the resultant plan; and

WHEREAS, This well-crafted plan has great potential for being incorporated (in whole or in part) in the next transportation reauthorization legislation.

NOW THEREFORE, be it resolved this 6th day of March 2019, that the American Concrete Pavement Association supports the plan and will proactively assist with outreach and communication of the merits of the plan in our ongoing activities and dialogue with industry and agencies at the national and local level.
