American Concrete Pavement Association is the national trade organization leading the promotion of concrete paving, and aligning its members, chapters/state paving association affiliates and partners for effective and valued concrete pavement promotion, advocacy and technical support.
AACA represents our membership on matters affecting the industry’s relations with the public and public agencies and assists our affiliates with creating a larger market for the services of our members.

MEMBER BENEFITS

The ACPA network of affiliates includes professional engineers, promoters, lobbyists, and others whose sole function is to advocate for concrete pavements, member interests and to help solve critical industry issues across the country. Members can tap into a strong collection of skills and talents that can improve their quality and competitiveness, and provide them opportunities for valuable information and relationships. When you support the industry, the industry will support you; members build business partnerships and lifelong friendships by active participation in ACPA. Join and you will enjoy these benefits:

+ networking
Through ACPA national meetings and chapter/state events, you will meet individuals and potential customers from all around the industry and public sector. Whether strengthening or building new relationships, ACPA will connect you to people that can help improve your business.

+ voice
Amplify your voice and shape ours. Through the ACPA network you can join with hundreds of businesses and people to influence decisions on important industry issues. ACPA is the recognized and respected national voice and face of the concrete pavement industry.

+ viability
Foster recognition for you, your company and your products and services. Share opportunities to showcase your capabilities and demonstrate value to our focused target audiences. ACPA offers visibility opportunities at meetings, on the web, in print, and in digital communications.

+ recognition
Enter your projects in our National Excellence in Concrete Paving Award Program to compete for valuable awards and recognitions. As a contractor winner you’ll be able to fly a winner’s flag on your equipment and receive special sealed commendation letters useful for demonstrating your quality in project proposals. You’ll also receive positive news coverage from press generated by the program.

+ knowledge
Gain new insights on pavement technology and industry trends. Your active involvement in ACPA’s many committees, task force and educational opportunities pays dividends available only to members.

+ troubleshooting
Get our unique help solving your project challenges. Our local and national agency relationships are instrumental in negotiating engineering solutions and demonstrating industry standards to project owners. ACPA members report saving millions of dollars each year through our project advice and helpful agency relationships.

+ community
You’ll be a part of something bigger – the community of businesses and people who believe in the same product you do. Concrete pavement is the paving material of choice. ACPA brings a national perspective to support the local messaging, which is vital to promotion success.

CORE NATIONAL FUNCTIONS

liaison with government
ACPA is called upon for advice in pavement matters by the Federal Highway Administration, the Federal Aviation Administration, the military tri-services and the American Association of State Highway and Transportation Officials. ACPA recommendations on design, specification and construction procedures are highly regarded by these agencies, as well as state and local agencies served by our chapter/state affiliate network. ACPA members are represented with these agencies by the Association in a manner they cannot provide individually or through the support of hired consultants.

technical consulting
ACPA and our technology partners help members, contractors, agencies and engineers with concrete pavement technical expertise. Our experts address issues like new technology implementation, quality control problems, specification interpretation, value-engineering proposals, concrete mixture evaluation, joining, cracking and many other issues encountered in the field. We also help members and equipment manufacturer companies with helpful agency introductions and meetings.

training
ACPA routinely provides training for members, private owners and specifying agency personnel. We use all approaches to reach our audiences, including, face-to-face, web-based seminars and training on demand.

cooperative research
ACPA chartered the National Concrete Pavement Technology Center in 2005 and annually provides funding and staff support on key research and technology projects. ACPA identifies priority projects aimed at finding practical solutions to help answer pavement agencies/owners’ needs, as well as grow ACPA members’ bottom lines.

promotion federation
ACPA links a federation of chapter/state promotion organizations, all with the objective to make concrete the paving material of choice. ACPA brings a national perspective to support the local messaging, which is vital to promotion success.

ADVOCACY
ACPA delivers the collective voice of the concrete pavement industry to legislators and policy-makers in Washington DC on matters affecting member’s business interests.

INFORMATION CENTRAL
ACPA is the clearinghouse of a vast amount of information for the industry. We gather and disseminate the latest developments in equipment materials, construction, design, specifications, and research. Our on-line resource center is the largest repository dedicated solely to concrete pavements in the world. This ensures that owners/agencies have up-to-the-minute information to prepare designs and specifications, and ACPA members are aware of the latest options for building quality pavements.

DOCUMENTS AND WEB RESOURCES
ACPA works progressively to get information into the hands of those who need it. ACPA provides a true concrete pavement industry perspective and is the only organization to include the paving contractors' experiences and viewpoints. Our constantly evolving range of digital tools include: unique web apps (apps.acpa.org); an online encyclopedia (wiki.acpa.org); the resource center (resources.acpa.org) and our primary website (acpa.org).

DESIGN SOFTWARE
ACPA offers a full suite of pavement design software for pavement engineers and designers. Recognized throughout the world, these tools provide a reliable means for engineers to design concrete pavements.

NATIONAL AWARDS
ACPA presents national paving awards annually to the best projects and teams. Started in 1991, the “Concrete Pavement Excellence Awards” are a highly regarded achievement for both industry and agency alike. Members use these awards to demonstrate their quality to potential customers.

ANNUAL MEETING
ACPA’s annual meeting is the foremost event for the concrete pavement industry. It provides opportunities to discuss the latest developments in equipment, materials, construction techniques, designs, specifications and quality control. The “Concrete Pavement University” educational program provides an array of interesting topics and the awards banquet highlights the industry’s exceptional projects and people.
ACPA represents our membership on matters affecting the industry’s relations with the public and public agencies and assists our affiliates with creating a larger market for the services of our members.

**MEMBER BENEFITS**

The ACPA network of affiliates includes professional engineers, promoters, lobbyists, and others whose sole function is to advocate for concrete pavements, member interests and to help solve critical industry issues across the country. Members can tap into a strong collection of skills and talents that can improve their quality and competitiveness, and provide them opportunities for valuable information and relationships. When you support the industry, the industry will support you; members build business partnerships and lifelong friendships by active participation in ACPA. Join and you will enjoy these benefits:

- Networking: Through ACPA national meetings and chapter/state events, you will meet individuals and potential customers from all around the industry and public sector. Whether strengthening or building new relationships, ACPA will connect you to people that can help improve your business.

- Voice: Amplify your voice and shape ours. Through the ACPA network you can join with hundreds of businesses and people to influence decisions on important industry issues. ACPA is the recognized and respected national voice and face of the concrete paving industry.

- Viability: Foster recognition for you, your company and your products and services. Seize opportunities to showcase your capabilities and demonstrate value to our focused target audience. ACPA offers visibility opportunities at meetings, on the web, in print, and in digital communications.

- Recognition: Enter your projects in our National Excellence in Concrete Paving Award Program to compete for valuable awards and recognitions. As a contractor winner you’ll be able to fly a winner’s flag on your equipment and receive special molded commendation letters useful for demonstrating your quality and competitive advantage to your target audience. You’ll also receive positive news coverage from press generated by the program.

- Knowledge: Gain new insights on pavement technology and industry trends. Your active involvement in ACPA’s many committees, task forces and educational opportunities pays dividends available only to members.

- Troubleshooting: Get our unique help solving your project challenges. Our local and national agency relationships are instrumental in negotiating engineering solutions and demonstrating industry standards to project owners. ACPA members report saving millions of dollars each year through our project advice and helpful agency relationships.

- Community: You’ll be a part of something bigger – the community of businesses and people who believe in the same product you do. Concrete pavement is ACPA’s middle name as we are focused and committed to building the market for concrete highways, airports, streets/roads, and commercial/industrial facilities.

**CORE NATIONAL FUNCTIONS**

**LIAISON WITH GOVERNMENT**

ACPA is called upon for advice in pavement matters by the Federal Highway Administration, the Federal Aviation Administration, the military tri-service and the American Association of State Highway and Transportation Officials.
